

REMARKS

This is a full and complete response to the restriction requirement mailed November 22, 2004. The Examiner made an election of species grouping the species into four different groups and stating that there is no generic claim. The applicant herewith elects to continue prosecution on the species of Group III, namely claims 15 and 16 drawn to the sun screening assembly having a bridge portion including an elongated slot as graphically seen in Figures 14b and 14c. This election is made without traverse.

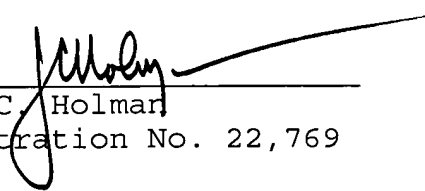

Claims to the non-elected species are retained in this application pending decision to file divisional applications or a generic or subgeneric claim being found allowable.

Early and favorable action on the merits of the elected species is courteously awaited.

Respectfully submitted,

JACOBSON HOLMAN PLLC
